TEST REPORT

CUSTOMER: Pick-A-Paddle
P. O. Box 421
1115 Fortuna Ave.
Park Ridge, IL 60068
USA

Attn: Howard Sokol

Product Name:	Badminton Racket
Age labeling:	N/A
Age grading:	N/A
Supplier:	Pick-A-Paddle
Sample received date:	December 16, 2008
Date of testing ended:	January 2, 2009

TEST CONDUCTED:

AS REQUESTED BY THE APPLICANT, FOR DETAILS REFER TO ATTACHED PAGE(S)

CONCLUSION:

<u>Tested Samples</u>	<u>Standard</u>	<u>Result</u>
Badminton Racket	1. Total Lead in Substrate	1. Does Comply
	2. 16 CFR 1303 Lead in Surface Coatings	2. Does Comply

(1.) Chemical Analysis: Total Lead in Substrates

Procedure: Acid digestion per **EPA 3050B/3051** was used and the total lead content was determined by Inductively Coupled Argon Plasma Spectrometry.

Requirement: The lead content shall not exceed 600 ppm of any part of the product as required by the **Consumer Product Safety Improvement Act of 2008 (CPSIA 2008)**.

However, as of August 14, 2009, the limit for total lead content will be lowered to 300 ppm.

Sample ID: Badminton Racket

Sample Utilized: Complete Product Digested

Test Results:

Parameter	Results (ppm)					Limit (ppm)
	1	2	3	4	5	
Total Lead	< 10	< 10	< 10	< 10	< 10	600

Component	Description
1	White handle - substrate
2	Red substrate
3	White wire - substrate
4	Black wire connectors
5	Metal connector inside red plastic connector

Conclusion: When tested as specified, the submitted sample **does comply** with the requirements set forth in the **Consumer Product Safety Improvement Act of 2008 (CPSIA 2008/H.R. 4040)**, Title I, Section 101 for total lead content in substrates.

(2.) Chemical Analysis: Total Lead (Surface Coating)

Procedure: Analysis of the surface coating/wet paint was performed by *Inductively Coupled Argon Plasma Spectroscopy* to determine compliance with **16 CFR 1303**.

Requirement: The lead content shall not exceed 600 ppm of the dried paint film as required by **16 CFR 1303**.

However, as of August 14, 2009, the limit for total lead content will be lowered to 90 ppm in accordance with the Consumer Product Safety Improvement Act of 2008 (CPSIA).

Sample ID: Badminton Racket

Sample Utilized: Coating Removed from Product

Test Results:

	Results (ppm)	Limit (ppm)
	1	
Total Lead	< 10	600

Component	Description
1	Blue surface coating on badminton head rim

Conclusion: When tested as specified, the submitted sample **does comply** with 16 CFR 1303 requirements.
